**Nitric Oxide Therapy**

**Pathway: L-arginine/Endothelial versus Nitrate/Nitrite**

Harnessing the Power of  
Nitric Oxide Therapy

**The ProArgi-9+  
Advantage!**

[https://youtu.be/wdyf\\_dJZer4](https://youtu.be/wdyf_dJZer4)

Both pathways are valid for the creation of nitric oxide.  
Both are short lived in their creation of nitric oxide.  
Both need other ingredients to continue the production of nitric oxide over a longer period of time.

Need to understand how to address the Neo40 statement that if you're over the age of 40 the L-arginine pathway is dysfunctional.

## Key Ingredients

When it comes to optimizing the ability of the enzymes of the endothelium to produce higher levels of nitric oxide, the following ingredients are needed:

L-arginine

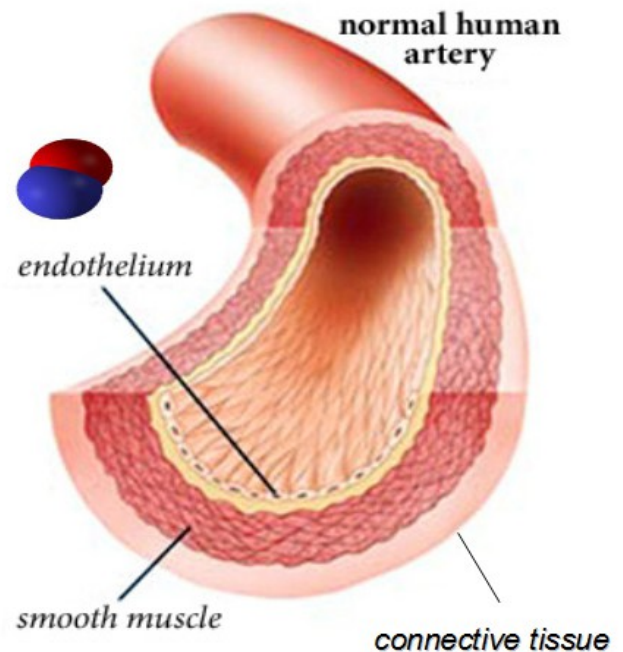

L-citrulline

Resveratrol or Red Wine Extract

Vitamin D3

Vitamin K2

Pomegranate Fruit Concentrate

## Key Resource Tools

The advertisement features a background image of a library with bookshelves and a person on a ladder. In the top left corner is the 'Our Synergy Family' logo, which consists of a blue hexagon with the text 'Our SYNERGY Family' inside. To the right of the logo, the text 'Our Synergy Family' is written in a blue, sans-serif font, with 'Our' in a smaller size above 'SYNERGY'. Below this, the tagline 'Combining Passion With Competency To Be Elite Honors Qualified' is written in a smaller, black, sans-serif font. The main title 'The Synergy Library' is centered in a large, red, serif font. Below the title, a paragraph of text in a black, sans-serif font describes the library's purpose: 'The Synergy Library is designed to empower you and your team to greater success. It's all about the implementation of knowledge to achieve a positive outcome. Our Synergy Library will help you combine your passion with competency to achieve greater success. Our Synergy Library will give you, and each of your team members, access to marketing tools, strategies, and exclusive informational pages. All designed to make it easier for you to grow your Synergy business. As we create new resources they will be hosted in The Synergy Library. Take time right now to browse The Synergy Library.'

CLINICALLY **PROVEN**

Numerous studies have shown the cardiovascular benefits of l-arginine; however, human studies show that the unique combination of ingredients in our ProArgi-9+ formula enhance the effects of l-arginine within the body in several ways.\*

DR. MATTHEW TRIPP, Chief Scientific Officer,  
Renowned Microbiologist & Geneticist

The effects of ProArgi-9+ are important, impressive, and increasingly needed in the world today. Thousands of people have put ProArgi-9+ to the test and have experienced a broad spectrum of benefits.

## GOOD HEALTH BEGINS WITH A **STRONG HEART.**

The heart is the most important muscle in the human body. When functioning properly, this life-sustaining organ delivers vital nutrients to the vast network of cells, tissues, and organs. ProArgi-9+ has been formulated to support the heart and provide a variety of heart-focused benefits.

### REDUCED LDL CHOLESTEROL OXIDATION

Studies have confirmed that the unique combination of ingredients found in ProArgi-9+ do indeed potently inhibit myeloperoxidase (a problematic enzyme that obstructs nitric oxide), and helps to reduce the oxidation of LDL cholesterol.

### RAPID INCREASE OF NITRIC OXIDE

ProArgi-9+ is the highest quality l-arginine supplement in the world. The body converts l-arginine into nitric oxide, the powerful molecule that supports the arteries, enhances blood flow, and supports muscle, heart, and central nervous system function.

While l-arginine alone gradually increases the body's nitric oxide levels, studies have proven that these levels are more rapidly and significantly increased by the complete ProArgi-9+ formula.

### ADDITIONAL BENEFITS:

- Helps relax arterial walls
- Helps maintain already normal blood sugar levels
- Supports blood flow to muscles and vital organs
- Maintains already normal blood pressure
- Delivers a pure, potent blend of ingredients in an easy-to-drink mix

## Nitric Oxide Therapy

Talk in terms of Nitric Oxide Therapy and what it can do to help people improve their cardiovascular health.

The Nobel Prize in Physiology or Medicine 1998  
Robert F. Furchgott, Louis J. Ignarro, Ferid Murad

### The Nobel Prize in Physiology or Medicine 1998

Robert F. Furchgott      Louis J. Ignarro      Ferid Murad

The Nobel Prize in Physiology or Medicine 1998 was awarded jointly to Robert F. Furchgott, Louis J. Ignarro and Ferid Murad "for their discoveries concerning nitric oxide as a signalling molecule in the cardiovascular system".

## Nitric Oxide Therapy

Nitric oxide has three critically important functions or benefits to your vascular health.

**First**, it relaxes the smooth muscle of the vascular wall causing vasodilation for improve blood flow, which also helps to maintain normal blood pressure.

## Nitric Oxide Therapy

**Second**, nitric oxide keeps blood platelet cells from sticking together to naturally lower your risk for strokes and heart attacks.

Nitric Oxide Therapy - **Third**, at high enough levels, nitric oxide will initiate reparative mechanisms to heal damage done to the endothelium. This can result in the reverse of plaque formations and calcification to help return the vascular system to a younger and more flexible state.
